(Navy photo from NEA)  
Just returned to this country is Lt. Alexander Vraciu, Jr., above, after a solid year of Pacific combat, during which he downed 19 Jap planes, destroyed 18 on the ground and sank a 7,000-ton enemy transport to become the Navy's leading fighter pilot. The 25-year-old flyer, from East Chicago, Ind., returned with famed Air Group 16, credited with downing 135 enemy aircraft.

## The War Today...

By DeWitt MacKenzie  
AP War Analyst

THE REPORT THAT NAZI GASTOPF had been assassinated and Reichsmarschal Goering wounded, the fact remains that all the leaders of the Hitler regime are increasingly in danger of violent death.

The dictator has put the already war-weary and gloomy German people under a terrific strain of emotion in his program for total war. He has chained them to their galley seats and is using the fact that they pull their oars for him to keep them under the even greater stress of continual defeat and retreat.

Thus Hitler may be able to keep the lid on for a time by terror and force, morale inevitably will deteriorate to the point where more and more individuals will seek to escape. He has chained them to their galley seats and is using the fact that they pull their oars for him to keep them under the even greater stress of continual defeat and retreat.

The greatest test of Hitler's ability to hold his people in line is still to be made. He's about to undergo a final test. He's about to undergo a final test. He's about to undergo a final test.

## Red Army Tightens Noose Around Nazi Divisions In Baltics

(By Associated Press)  
MOSCOW, Aug. 9. — Red army tightened a noose today around German Baltic forces once estimated at more than 20 divisions—between 250,000 and 300,000 men — and smashed a deeper wedge through Poland toward German Silesia west of the Vistula.

Three Soviet columns pressed on Riga from the west, south and east for possibly the biggest kill of the summer campaign. Heavily armored enemy units fell back upon the Latvian capital, their offensive thrusts shattered by Gen. Irving C. Bagration's right wing.

The Soviet high command announced that enemy forces are being "bled white" and "our troops are stubbornly advancing" against German reserve divisions thrown into desperate counter-attacks in

## LEND-LEASE TO BRITAIN SHOWN

### U. S. Has Furnished British With Two Billion Worth Of Foodstuffs

(By Associated Press)  
WASHINGTON, Aug. 9. — The United States has furnished Britain with about \$2,000,000,000 worth of foodstuffs in the three and a quarter years that lend-lease has been in operation. This is the most important element of civilian supply that will require adjustment when the war with Japan remains.

A steady curtailment in lend-lease aid to the British Isles, paralleled by a return to normal commercial trade, is expected after Germany is defeated.

However, so far as can be learned, no program to that end has been worked out and officials plan to make the curtailment only when they have a real situation to work with.

It is impossible at this time, one authority said, to estimate just what lend-lease help the British will need to concentrate their efforts in the final campaigns to crush Japan. Here, however, is the background against which decisions must be made when the time comes:

In the first three years of lend-lease, March, 1941, through March 1944, lend-lease shipments to all nations totaled \$17,195,000,000. Of that amount \$7,306,000,000 went to the United Kingdom.

The United Kingdom total consisted of \$3,169,000,000 of munitions such as guns and tanks, \$1,853,000,000 of industrial materials and products such as machinery and processed petroleum, and \$2,284,000,000 of agricultural supplies, including both food and farm machinery.

Foodstuffs alone totaled \$1,825,000,000, which means that food shipments to the British Isles have averaged about \$500,000,000 a month. The volume of food lend-lease is "described officially as representing about 10 percent of Britain's total supply."

Meanwhile reverse lend-lease, most of it given in the British Isles amounted to \$1,526,170,000 up to last January, the latest period for which figures are currently available.

## 28,000 STILL IDLE IN LABOR DISPUTES

(By Associated Press)  
Four work stoppages accounted for more than two-thirds of approximately 28,000 idle today in labor disputes in the United States and Canada.

These four involving some 19,000 were:

Five plants of General Motors' Gear & Axle division, Detroit, 7,000; Midwest over-the-road truck drivers in at least four and possibly eight states, an estimated 5,000; Wright Aeronautical Corp. three plants, N. J., plants, at least 3,000; Montreal, Que., tramways strike, 4,000.

Nine thousand more were idle in 16 other disputes across the nation.

### Missing N. Lima Sailor Now Listed As Killed

The Navy department today confirmed the death in action of Charles Frank Kasza of North Lima, Peru. The North Lima sailor, husband of Mrs. Anna Barbara Kasza had been previously reported as missing in a Navy department casualty list dated July 13. His rank was fireman, first class.

WE'RE IN THE HOME STRETCH: VOLUNTEERS NEEDED AT YOUTH CENTER. TONIGHT AT 6:30.

nearly every sector of the front to keep the Russian hordes from German soil. A communique supplement said all were repulsed.

The communique announced a six-mile northward thrust on the Vistula bridgehead, a drive that may be pointed at Warsaw from the south, and an advance to within 33 miles of Czechoslovakian border.

**Nazis Use Everything**

The Russians said to support their counter-attacks the Germans are hurling "even road-building, airborne and other read detachments" into battle. It was reported 16 new German divisions have reached the front in the past three weeks.

(The Russians did not disclose where the German counter-attacks have occurred but it could be assumed that at least part were aimed at keeping the Red army from leaping forward the few miles needed to reach the soil of East Prussia.)

A German southward thrust aimed at breaking out of the Estonia-Latvia encirclement was broken up by Soviet forces several days ago.

The rolling Russian legions have captured Radviliskis, on the border 43 miles from Riga.

The Soviet forces shot two other spearheads into Latvia along the Daugava river toward Riga.

Front advisers said there was reason to believe one of the biggest encirclements of the summer campaign was gaining new momentum. Thousands of German soldiers were reported being driven back to the Baltic in battle of extermination.

The Russian advances in the Vistula bridgehead in Poland likewise threatened new German disasters.

## FRIENDS PLAN YEARLY RALLY

### Arrangements Being Completed for Aug. 22-27 Sessions at Damascus

Plans are nearing completion for the annual Ohio Yearly Meeting of Friends to be held at Damascus Aug. 22-27, inclusive.

The Yearly meeting is composed of Friends churches in the states of Ohio, Iowa, Michigan, North Carolina, Virginia, Pennsylvania and California.

Rev. William Kirby of Huntington Park, Calif., will speak at the evangelistic services each evening and Rev. G. Arnold Hodgins of Wilmore, Ky., will speak at the expository hour Wednesday, Thursday and Friday mornings. Byron Osborne of Cleveland will be the speaker at the expository hour Saturday.

**Will Hear Missionary**

Rev. Charles DeVol, returned missionary from China, will speak at the annual Missionary service in the Yearly Meeting house at 2:30 p. m. Sunday.

The devotional sermon Tuesday morning will be given by Rev. Edward Mott of Portland, Ore.

The children's meetings will be in charge of Ronald and Theima Smith of the Cleveland Bible college.

The Christian Endeavor services will be at 8 a. m. Wednesday, Thursday, Friday and Saturday will be led by William Green of Portsmouth, Va., David Harper Willowick, Harold B. Turn to FRIENDS PLAN, Page 8

## "POOR LITTLE ME" WILL BE PLAYERS FIRST OFFERING

Announcing a tentative schedule and selection of their productions for the coming season, the Salem Players club met last night in the club rooms to make plans for try-outs for the season's opening play, "Poor Little Me," a light comedy planned for the first week in October.

Present arrangements call for try-outs, which are open to anyone interested whether a member or not, in the club rooms on E. State st. at 8 p. m. next Tuesday.

For their 1944-45 season, four other productions are also scheduled. During the fourth week of November, the club plans to present a mystery, "The Skull," which will be followed in the holiday season by "The Christmas Carol."

"Murray Hill," another comedy, will be given sometime in February and the season is slated to close with "Arsenic and Old Lace," a mystery-comedy, in the latter part of April.

Selected as a director for the initial show was Howard Dodge, winner of the club's "Hammy" for the best supporting role of the past season. Dodge outlined the opening play and set the date for try-outs, which are being held to select the four male and female players needed.

## SUBMIT LOW BIDS ON ROAD PROJECTS

Bids were received today by the state highway department on two district projects, one the improvement of Route 39 in the business section of Salineville and the other the reconstruction of the Pittsburgh-Yungtown road (Route 14).

The Ohio Road Improvement Co. of Columbus cast the apparent low bid for the Salineville job, \$14,998. The Fenton Construction Co. of Ashland apparently was low on the other job with its \$24,471 estimate.

The Salineville improvement extends 1,071 miles and the other 2,301 miles.

## PVT. RALPH MENTZER KILLED IN FRANCE

Mr. and Mrs. Frank Mentzer of R. D. 2, Salem, were notified by the War department today that their son, Pvt. Ralph A. Mentzer, 26, was killed in action July 11 in France where he was serving with a medical detachment.

No details of his death were received. The War department indicated a letter giving other information would be sent later.

Pvt. Mentzer, who was stationed in England before going to France a month before his death, was born in Salem July 24, 1918, and attended school here. He made his home on a farm near Kensington before entering service June 22, 1942.

He received basic training at Camp Blanding, Fla., and Needles, Calif. He was in the medical detachment of the 315th infantry in France. Pvt. Mentzer had been overseas since April 9, 1944, and was in England two months.

Besides his parents, he leaves two sisters, Mrs. Edna Elizabeth Liber and Mrs. Emma Corinne Liber, near Kensington.

A memorial service will be held later at the First Friends church.

## SERG. PLEGG, JR., HURT IN ACTION

Taking command of his platoon after a lieutenant and two sergeants were wounded by sniper fire, Sgt. Joseph Plegge, Jr., 22, son of Joseph Plegge, Sr., 418 Franklin st., was wounded by mortar fire in action in France on July 27, his family was notified by the War department today.

Although a letter from Sgt. Plegge, written two days after he was reported wounded, told the family he was in good shape and ready to rejoin his outfit, the War department message said he had been seriously injured.

In the letter dated July 29, Plegge said he had taken command of the platoon after two sergeants and his lieutenant were wounded by German snipers. He told his family the going was tough, and added "these Jerries can lay their shells where they want them."

He has been overseas since April after training at Camp Atterbury, Ind., and Camp Breckinridge, Ky. Entering the service in 1942, Sgt. Plegge received several promotions before he was sent to France.

A brother, Pfc. Willard Plegge, has been wounded twice in action in Italy.

## 6 DEAD, 11 MISSING IN CLIPPER MISHAP

HAVANA, Aug. 9.—The known toll of six dead was expected to rise today as a salvage crew worked to lift a four-engined Pan American clipper from the bottom of Nipe bay, Antilla, where it crashed while taking off for Miami with 31 persons aboard.

Eleven passengers, two of them children, remained unaccounted for after the accident yesterday. The big plane was on a regular San Juan-to-Miami flight and had made a stop to discharge three passengers.

## Picnic At Park Enjoyed By Quota Club Members

Quota club members enjoyed a picnic supper last night at Centennial park. A quiz program followed the supper, with Mrs. Rine Wark as winner.

## SPLIT JAPS IN GUAM VICTORY

(By Associated Press)  
U. S. PACIFIC FLEET HEADQUARTERS, Pearl Harbor, Aug. 9.—Japan's hour glass was running out on Guam today.

The extermination of the last Nipponese was under way in the north-east corner of that United States outpost where a garrison of little more than 200 Marines was overwhelmed in December, 1941, by 7,000 Japanese who told the natives the Americans never would return. The counted enemy dead already exceeded 10,000.

American warships, planes, marines and soldiers herded a last-ditch group of defenders into a 15-square-mile area of the 225-square-mile island. Then they drove a center wedge within a mile of the northeast coast, seeking to split up the doomed Japanese and speed their destruction.

Gen. Douglas MacArthur today announced at his Southwest Pacific headquarters the sapping of Japan's air strength at Halmahera on the southern approach. He said Liberators, defying bad weather, wiped out 13 parked planes and damaged many others in a 48-ton bombing raid.

On Guam, an American line roughly forming a letter "W" squeezed the enemy against the northeast shore, there to die without air or naval support. Describing the line in a communique last night, Adm. Chester W. Nimitz said:

## DON SHANNON HURT IN SAIPAN BATTLE

Marine Corp. Donald J. Shannon, 19, a veteran of a year and nine months overseas duty, was wounded June 15 in the battle for Saipan, according to word received today by his parents, Mr. and Mrs. Joseph Shannon, 983 N. Howard ave.

A Navy department telegram informed the family only that their son was injured. Details of the injury and his condition would be forthcoming, the message said.

A letter, written in late July by an army chaplain who had seen Corp. Shannon in a hospital on Saipan, told them he was all right and was recovering.

Mr. and Mrs. Shannon haven't heard from their son since May 27, when he wrote and told them "things are getting tougher and tougher."

He entered the service March 5, 1942, and was trained at Parris Island, N. C. After a nine months overseas assignment that included participation in the battles at Attu and Kiska, Corp. Shannon was granted a 30-day leave and came home last September. He was then sent into the Pacific area and later to Saipan.

Two brothers, Harold, a Navy operator, and Lieut. (j. g.) Robert Shannon of the Merchant Marine are also serving overseas.

## Report Yanks Now 85 Miles From Capital

(By Associated Press)  
SUPREME HEADQUARTERS, Allied Expeditionary Force, Aug. 9.—American troops today captured Le Mans, southwestern gateway to Paris barely 110 miles beyond, and Canadians smashed through the Germans' second defense line to a point 16 miles below Caen.

(Berlin broadcasts said motorized U. S. forces had raced on through Le Mans to within 87 miles of Paris.)

The Canadian plunge carried within four miles of Falaise, itself only 65 miles above Le Mans. The Allied wings were curling around the bulk of the German army, threatening to pocket it.

Other U. S. troops battering southward neared Angers on the Loire river, 50 miles inland from the river port of Nantes and 50 southwest of Le Mans.

This broadened the U. S. front in France to some 80 miles, enemy resistance in the Loire push was reported light.

On the Breton peninsula, doughboys charged into the outer defenses of the great port of Brest after the German garrison refused a surrender ultimatum. Lt. Gen. Karl Spang, commanding the German 266th infantry, was captured near Brest.

The Allies apparently had split German armored forces into three great blocs. The enemy threw tanks into vain attempts to halt the surge into Le Mans. Four armored divisions had been committed to a futile counter-attack at the Allied center near Mortain. The enemy was throwing other steel machines against the Canadian army tide advancing below Caen.

Close In On St. Malo

A front dispatch said Americans had sealed off the German penetration near Mortain, and had knocked the enemy from Cherbourg-Roussel in that area and captured three more towns. Fighting continued, however, near Juvigny.

United States forces were closing on the ports of St. Malo, on the North Breton coast, St. Nazaire, and Nantes. Reconnaissance patrols were reported at the Loire's river mouth.

(The Berlin radio said German troops at St. Malo had pulled back within the inner ring of the city's defenses.)

The Canadian drive, ripping through a great German anti-tank wall, had cut more than 10 miles forward, carrying 16 of the 20 miles from Caen to the road hub of Falaise. From 800 to 1,000 Germans were captured. The key town of Breteville-sur-Loire, nine miles below Caen, was seized.

Both the Americans and Canadians were within little more than 100 miles—and perhaps closer—to Paris in a great pincers drive on the French capital.

American troops besieging Brest gave the Germans a chance to surrender. The offer was refused and the Americans now are attacking.

## Salem Soldier Takes Time In Pacific To Raise Garden Crops

WITH THE 37TH ARMY DIVISION, Somewhere in the Southwest Pacific Area—Harold C. Sebrell of Salem, O., is not only a member of a gun section in his Field Artillery battalion, but is also furthering the war effort by helping to grow vegetables.

"Manna from heaven," Sebrell's "manna" from which he expects to get enough fresh vegetables for his battalion.

While his unit is in combat Pfc. Sebrell is a No. 1 canner on a 105 mm Howitzer and he has participated in the firing of some of the most devastating artillery barrages in South Pacific history.

Pfc. Sebrell is assisting a number of other soldiers in the Victory garden, which consists of an acre of land on which are planted vegetables of every description. Needless to say, the men welcome this change from canned to fresh vegetables as "manna from heaven."

Pfc. Sebrell is the son of Mr. and Mrs. H. Sebrell of Salem and prior to induction in January, 1941, was employed as a machinist by the E. W. Bliss Co. His foreign service includes duty in New Zealand, Fiji Islands, Guadalcanal, New Georgia and Bougainville.

## BOMBS RAINED ON STUTTGART

### 1,500 U. S. Planes Raid Big German City, Hungarian Targets

(By Associated Press)  
LONDON, Aug. 9.—More than 1,500 American planes attacked the Stuttgart area of southwest Germany and Nazi oil and aircraft facilities in Hungary in coordinated blows today from the west and south.

Yugoslav rail yards at Brod also were bombed.

An armada of 1,000 heavy bombers and fighters flew through clouds three miles thick in attacking the war plants of Stuttgart, the "Detroit of Germany." They flew from England.

Up to 500 Flying Fortresses and Liberators from Italy struck in Hungary. The Almas Fuzito oil refinery on the Danube 30 miles west of Budapest was left in flames. Other targets were a Messerschmitt assembly plant at Gyor, and air-dromes at Vecs and Tokol.

The Germans said both air fleets were engaged in bitter battles and that Nazi fighters inflicted severe losses.

Stuttgart, a city of 400,000, and the capital of Wurttemberg, is in southwest Germany 110 miles from the French frontier. It is on rail and highway routes to Paris and Munich and is the site of a ball bearing factory, a magneto works, and airplane engines and assembly plants.

British medium bombers in the early afternoon exploded an ammunition dump in the Lyons forest, ten miles east of Rouen. A forest fire was kindled by the explosion and "this was followed by a gigantic upheaval of the earth which sent a wave over a radius of five miles," a pilot said.

"You could see the whole countryside quivering and trees were bent over by the blast," he said. "Flames and smoke rose to a great height."

Three of these bombers were lost to intense ground fire.

The first fliers returning from Stuttgart reported only moderate flak and no enemy fighters, in contrast to German assertions. Weather was foul, some crews running into three-mile thick cloud banks which made flying hazardous.

## Injured Liverpool Pilot Returns From Overseas

EAST LIVERPOOL, Aug. 9.—Lieut. Richard Moninger, 27, pilot of a Marauder bomber, who cabled 10 days ago that he was safe in England after he had been reported missing when his plane was shot down over France, arrived in the United States for hospitalization, learned today.

Lieut. Moninger, who attempted to "coax" his disabled ship back to England after ordering five crew men to "bail out," was injured in a crash landing. Aided by the French underground, he returned to England.

He is on his way now to a White Sulphur Springs (W. Va.) hospital.

## HIGHWAY WARS

Humanity gets one break from modern war which has shown the world new ways of destroying life and property. Today's war moves on the highways and in the air and as a result farmland escapes much of the ravage which once followed an army on foot.

American experts who followed the armies advancing northward in Italy have found the Italian fields and crops damaged so slightly that food production will be almost normal. In parts of France the soldiers find fields of crops ready to harvest and trees heavy with fruit. Best of all the owners know that the Nazis will not be there to steal their crops.

This helps to solve one of the major post-war problems. It had been expected that the United Nations and especially the United States would have to feed much of the civilian population. It now develops that in many localities, the food supply will be sufficient for the people and in Italy, as a beginning, some of the plans for importation of food already have been cancelled.

Russia already is cultivating much of the land wrested from the enemy, using millions of pounds of seed sent from this country. Each mile of reclaimed territory means just that much more food available for the population which has been starved by the Nazis during the war years. The advancing forces of the allies bring not only freedom but the first square meals the people have known since the enemy came. The reestablishment of life in liberated Europe may not be so difficult as was once anticipated.

## OUR STAKE IN WORLD TRADE

Restoration of normal world trade as quickly as possible after the war ends is no abstract economic problem but something which affects every American worker in his pay check.

Nations have become more independent since the war cut off normal sources of supply. Synthetic products have been developed by all the major nations enabling them to supply at home substitutions for things they once imported.

Production has been booming because factories have been turning out goods to be expended in war. Once the peace is signed, this production will stop and if the factories are to keep on producing they must have civilian markets for their goods.

Most of the world wants American manufactured products. It can buy them only if it has money or credits. It can have buying power only if it can sell its own products.

This is the problem facing the world's economists and every man on the production line has a vital stake in their deliberations. It means that if this or any other country is to prosper after the war it must have a policy broad enough to recognize its relations with the rest of the world.

Private interests are doing their thinking and planning. If this government fails to keep pace with them in mapping its postwar relations with the rest of the world, the American worker will pay for the delay in shrinking employment opportunities. Our way of life after the war will be determined in considerable measure by the way the rest of the world lives.

## THIS IS COOPERATION

Battle fronts of the world prove that it is possible for nations to cooperate. Whether they will continue this teamwork in the postwar period is yet to be seen but events up to this time show that close and effective collaboration is possible.

It has been divulged that date of the Normandy invasion and much of the plan was decided upon at the Teheran conference and that everything has moved smoothly and on schedule. The Russian armies have moved at incredible speed in the east and the Americans and English are back on their timetable.

Both sides are punching with prearranged timing and all history of world wars fails to show a better example of cooperation.

It is this that can be done in the heat of battle, it is just as possible during the conferences which will come after the war. Each side has kept its promises and that in itself is a most hopeful sign. Russia was promised arms and supplies and received them in staggering amounts. She was promised a second front and was given a second and a third, each drawing off German strength which otherwise would have been employed on the eastern front where the Nazis need it so desperately. On the other hand, Stalin promised that his armies would hold the Germans and drive them back toward Berlin and he has fulfilled this promise magnificently.

It is natural that men should look upon the post-war conference with anxiety, knowing the national ambitions of all the people who will sit at the table but the conduct of the war is the best ground for hope that a successful peace can also be won if all sides continue to play square with their allies and keep their promises.

## The Stars Say

For Thursday, August 10

ALTHOUGH there may be conflicts and opposition from influential quarters this day should be an extremely gratifying one, with all the affairs and objectives under excellent promise of ultimate success and accomplishment, against significant odds. There may be promotion, preferment, expansive business conditions, and a most desirable move toward solidifying economic stability and enduring security. Some danger from mistakes, pressure or emotions is seen unless restraint is used with prudence and amiability. Increased personal prestige and popularity as well as social and romantic attachments, with good luck also are promised.

Those whose birthday it is may anticipate a year of good luck, business and credit increase, popularity and prestige enhanced, with tokens of love and esteem, favors and preferment, from those in influential places as well as in sentimental relations. Some opposition may be born of aggressive action, impetuosity, indulgence in speculation or long chances. But proper restraints should promote cherished ambitions and bring personal happiness, possibly gifts and economic security.

A child born on this day should have splendid talents, fine ambitions and sound character.

## Mr. and Mrs. Scrooge

By Fannie Hurst

The meanest man in the world these wartime days is the one who drives his wife to the market place on black market gas so that Mrs. Scrooge can load up the with black market food products to which neither of them is entitled.

While Mr. and Mrs. Scrooge are taking on weight and cheating young men who are fighting and bleeding and dying for them, soldiers in jungles, pilots in airplanes, crews locked in submarines under oceans, are being deprived of their chances of survival.

Black markets all over the face of the United States prove the existence of masses of people who must be in the despicable image of Mr. and Mrs. Scrooge, or these illicit markets could not survive.

What must it be like to be Mr. and Mrs. Scrooge? What must it be like to ride around, illicitly propelled on gas that belongs to young men who are being sacrificed for you? What must it be like to gulp down gobs of red meat or quaff liquors that the government needs in the name of Allied victory? What must it be like, Mr. and Mrs. Scrooge, to be safely on the civilian front, with a wall of flesh and blood of American youth between you and the hell of combat? What must it be like, Mr. and Mrs. Scrooge, to cheat yourselves, your youth, your country?

## The Honest Melting Pot

By Christopher La Farge

Go a little below the surface and you'll find honesty in most men. Take the great myth of an Anglo-Saxon United States, for instance. A man wrote me a blast of a letter, damning me because I had damned all isolationism. He ended his letter thus: "I am 100 per cent Yankee—there is not another drop of blood other than Yankee blood in my veins."

I wrote him back and asked him why he said that. Did he think it should give him more votes in Town Meeting than me? Did it make him more valuable than the non-Yankee Swedes who settled Delaware, the Dutch who settled New York? Or, if I could prove to have some fancier, more notable ancestors than his, and all Yankees, would I outrank him?

He answered, at once. He said he was married to a French Canadian. He had two sons by her, both in service. He said, "How could I say I was better than my sons, who are fighting for their country?"

It was an honest answer. It is one that many might ponder, might be properly prouder to give than his first boast.

More and more the common soldiers and the important officers of Germany are being thrown together—and shot.

Hitler may live longer than he expects. It likely will take months and months to read all the charges against him.

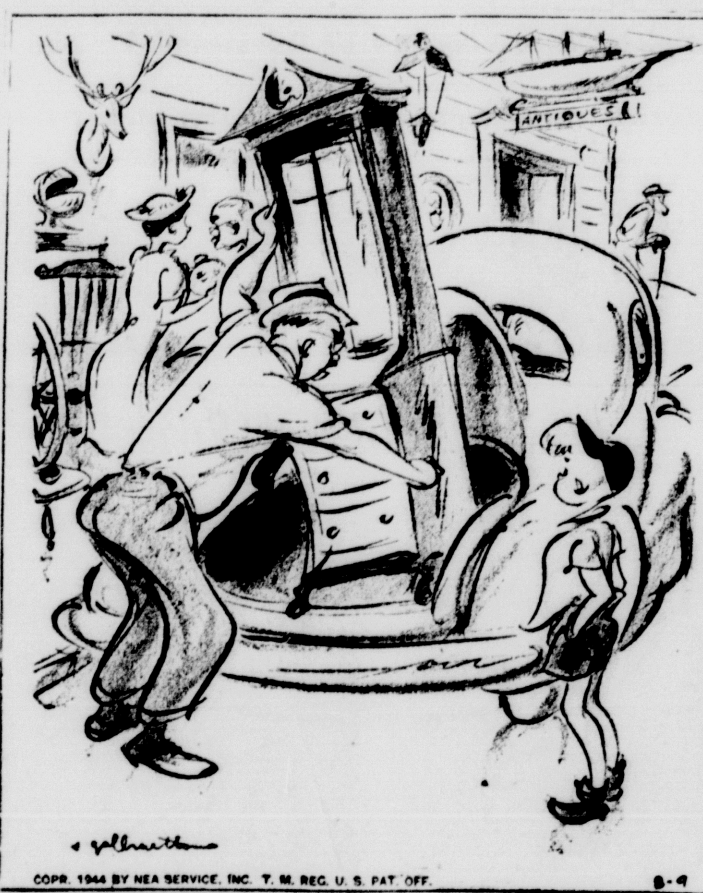

It might be a good idea to rewrite all the cook books and simply leave out the butter.

For buying War Bonds and giving blood, tomorrow is just one day late.

Modern history—Germany is bounded on the east, west and south by Allied troops.

## GUARDING YOUR HEALTH

Dangers From Vermin Infestation

By LOGAN CLENDENING, M. D.

WHILE INFESTATION with the body louse is very common in the United States and has been so far as memory reaches it has not constituted a serious health menace until now. Under wartime conditions with large numbers of the population who have been in areas where there is typhus or relapsing fever, returning to the United States, they may come back with

Dr. Clendening will answer questions of general interest only and then only through his column.

some of the germs in their blood. True all returning soldiers, sailors and marines are supposed to be de-loused before they re-enter their country, but accidents will happen and anyway the service man who has become a reservoir for louse-borne diseases may pick up a crop of lice and these may proceed to spread the disease to the civil population.

Even if this is a somewhat remote possibility there are plenty of other good reasons for getting rid of such filthy things as lice. And since every once in a while someone in even the highest society comes home with a head full of lice, it is a problem which affects the high and the low, the clean and the dirty, and you might as well know what to do.

There are two varieties of lice—the head louse and the body louse, and they stick pretty much to their own territory. The head louse can be detected by seeing the animal itself slithering in and out among the hairs, as Burns did that day in church which inspired him to write the everlasting lines:

"Oh! wad some power the giftie gie us,  
To see ourselves as others see us."

And even if you don't see the beastie itself you can detect the eggs cemented to a hair looking for all the world like little grains of sand or salt. Of course the infested victim usually knows it by the itching. If he has never had any lice before he may be attacked by a sudden, mysterious itching of the scalp or body. The old hand knows right away what the itch is due to.

**Removing Body Lice**  
On the body, lice leave little red blood clot spots which may be a

guide to the fact of invasion. The proper treatments for louse infestation of the body are first and foremost to get them out, all the underwear and clothes. All the clothing must be steamed and pressed with a hot iron. Such clothing as can be boiled should be boiled.

Most insect powders do not touch them. Sulphur powder, or a powder made up of 96 parts naphthalene, 2 parts iodoform and 2 parts of creosote usually is effective. If the clothing is freed from them they are not often found on the body afterwards, because they remain attached to the clothing even while feeding. The body should be thoroughly bathed and scrubbed and the hairy parts where scratch marks or scabs are seen should be shaved. After the bath the skin surface should be sponged with benzene.

## Treatment For Head Lice

The head louse is a somewhat more complicated animal to get rid of. The head can be shaved and that will do the trick, but there are obvious disadvantages to that. The old method of treatment was to soak the head and hair thoroughly in equal parts of crude petroleum and olive oil and bandage for 24 hours. A bathing cap can be left over the bandage. The mixture dissolves the glue which attached the eggs to the hair shaft and they can be combed out with a fine comb. It also kills the adult lice. Its objection is that it leaves an odor. The most elegant and latest preparations which are free from all these objections are phenyl cellosolve and benzyl cellosolve. They are made by the Carbon and Carbide Chemical Corporation. They are used in 10 to 40 per cent concentration.

## SO THEY SAY

It's true that many women have jobs that will end almost as soon as the war does, but there are hundreds of thousands in factories, like automobile and aircraft plants, who are going to fight to keep their jobs.

—Rep. William M. Colmer of Mississippi, Postwar Policy chairman.

A large percentage of women workers are only waiting for their sweethearts or husbands to return from military service and they will retire to their homes.

—Rep. Everett M. Dirksen of Illinois.

It is hopeless to fight longer because more and more of their tanks and guns and troops keep coming against us.

—German soldier to Frenchman in Brittany.

The Germans were strictly reliable. They were tired, discouraged and sweaty. Many of them had thrown away their arms. Some wore slippers.

—French refugee in Normandy.

The fact that a group of German generals dislike Hitler is all grist for our mill, but the German general staff and the Junker mind are no less antipathetic to us than Hitler.

—Secretary of War Henry L. Stimson.

## HEALTH QUIZ

Do you have poor digestion? ☐ YES ☐ NO  
Do you feel headachy after eating? ☐ YES ☐ NO  
Do you get sour or upset easily? ☐ YES ☐ NO  
Do you feel tired—listless? ☐ YES ☐ NO

Do you feel headachy and upset due to poorly digested food? To feel cheerful and happy again your food must be digested properly.

Each day, Nature must produce about two pints of a vital digestive juice to help digest your food. If Nature fails, your food may remain undigested—leaving you headachy and irritable. Therefore, you must increase the flow of this digestive juice. Carter's Little Liver Pills increase this flow quickly—often in as little as 30 minutes. And, you're on the road to feeling better.

Don't depend on artificial aids to counteract indigestion—when Carter's Little Liver Pills aid digestion after Nature's own order. Take Carter's Little Liver Pills as directed. Get them at any drugstore. Only 10¢ and 25¢.

### Beauties' Hints

## Brace Wrists—For More Ease In Using Polish

MISS MANNERS: On fingertips.

By ALICIA HART  
NEA Staff Writer

Mastering the most skill-defying part of the manicure—putting on polish so that it doesn't look like a home-grown job—calls for tricks. From a clever girl who has just these up her sleeve—radio's shining star, Lucille Manners—you can learn how.

First, she says, use a base coat to keep the colored jacket that's to come out of the grooves. Next steps, according to Lucille, are to brace your wobbly wrist by holding your hand firmly against a table; to take out a sparing brushful of polish; to outline a narrow band of color around sides and base of one nail; then—here is the rest of her procedure—with up and down strokes fill in color, beginning at the moon and pulling down to the nail tip, where surplus can be thumbed off. Clean up all polish strays on one finished nail before going on to the next. Waiting for smears to harden, Lucille warns, makes them tougher to remove.

### ITALIAN LINER HIT IN SHANGHAI RAID

CHUNGKING, Aug. 9.—The Italian liner Conte Verde, now in Japanese hands, received direct hits in the first attack by U. S. bombers against Shanghai harbor, Gen. Joseph W. Stilwell's headquarters announced today.

The raid was carried out Monday by Liberators.

Shanghai, with its 3,500,000 population is the largest city under Japanese occupation. It fell in 1937 after a heroic 32-day struggle by the Chinese defenders.

The Italians scuttled the Conte Verde after Italy's surrender to prevent the Japanese from making use of her.

The Japanese salvaged the ship for use as a transport. Damage from the bombing has not been assessed.

## Missionary Speaks At Church Tonight

COLUMBIANA, Aug. 9.—Mrs. Jean Rothermel Roand, returned missionary from India, will speak at the Christian church at the mid-week service this evening. Mrs. Roand was reared in India and with her doctor mother plans to return to her work soon. The public is invited to attend. Rev. L. Nathan Black is the church pastor.

The Missionary society of the Lutheran church met at the church this afternoon with members of the Missionary society of the New Waterford church as guests. The "Outlook" topics for July and August were presented and the pastor, Rev. C. J. Sutorius, gave the Scripture review.

Mrs. R. J. Esterly received word Monday of the death of her uncle, C. E. McGrath, at Ford hospital, Detroit, following an operation. He was a brother of Rev. C. S. McGrath of Wooster, former local Presbyterian pastor.

A "Methers Tea" will be held by the 4-H Clubettes at their next meeting at the American Legion home, Aug. 16.

Corp. Raymond Esenwein has reported to Camp Robinson, Ga., after spending a furlough with relatives here.

The Towson class of the Presbyterian church held its annual breakfast at Firestone park Sunday morning. The teacher, Mrs. C. E. Bender, had charge of the devotional period. The committee in charge was composed of Mrs. J. K. Harding, Mrs. Charles Ramsey and Mrs. C. H. Koch.

Relatives here have been advised that Staff Sgt. Hiram W. McGrath has been moved from England to France. He is with a medical detachment of the 56th General hospital. He has been stationed in England since last October.

Mrs. Carl Bartholomew is in Dunkirk, N. Y., where she is attending one of the family weeks of the Grace Reformed and Evangelical church, held each year at the Dunkirk Conference grounds on Lake Erie.

## Winona Group At Bethesda Meeting

## Students Sketch Smart Styles For Dual-Purpose Wardrobe

BY EPSIE KINARD  
NEA Staff Writer

NEW YORK—Fashions-to-be for the world of tomorrow have been cooked up a-plenty in idle talk and drawing-board sketches, but it took some up-and-coming Stephens college, Mo., students—probably the designers of tomorrow—to give ideas the substance of cloth, glove fabrics and shoe leathers.

These girls believe that postwar fashions will be influenced by air travel. To prove that the same clothes worn while you're piloting a plane can serve you as well when you push a perambulator, they marched out their pencil-sketches in a collection of snappy flight fashions in a recent showing at Columbia's municipal airport. Aviation students served as models and whirling planes served as backdrop.

Showing the shape of things to come when you drive an air jitney and want to light in style was a suit for the office plus a playsuit underneath, to wear while you're manipulating the rudders, brakes and stick. You see the visible two-piece office suit of Navy trimmed apple green shantung, designed by Gloria Montag, Portland, Ore., student, in the photograph at the left. What you don't see is the pilot's garb, which is a white shantung playsuit.

Planned with an eye to air hazards of tomorrow when skirts may be replaced by trousers, and when feet and hands that work the controls must be free of entangling alliances, were overall-styled work-suits. For proof that they're going to be pretty snappy, take a look at the dusty pink sharkskin number shown at the right, the original design of Jean Richter of Westfield, N. J.

Made for action, it has a pleated back, fly-front opening and tapered trousers and sleeves. Worn with suits of this type were monogrammed faille scarves, half-and-half leather and knit gloves and workbag, and low-heeled, square-toed shoes with such safety devices as upswep vamp, open shank and instep tie.

Mrs. Mabel and Miss Elma Satterthwaite entertained at Sunday dinner for Mr. and Mrs. Harry Cooper of Salem and Mrs. Emily Satterthwaite.

## OHIO AREAS STILL DROUTH-STRICKEN

(By Associated Press)

COLUMBUS, Aug. 9.—Despite scattered showers during the past week, Ohio's drouth has increased in severity since the first of August, the weather bureau reported today.

Metecologist George W. Minding said since Aug. 1 the drouth has been partially relieved at less than one-fourth of the 37 weather observation stations reporting, and that the general situation for the state has grown worse.

"The low stage of the rivers," Minding said, "confirms the belief that the drouth is becoming more serious. At Delaware on the Ontonagon, the stage is the lowest it has been since 1923."

"On the Scioto, conditions are equally bad. At Circleville the present stage is the lowest in 19 years. At Chillicothe and Piquette it is also much below normal stage." July records from 92 Ohio stations show that only seven had more than three inches of rainfall for the month. Normal precipitation is around four inches.

Minding said lack of moisture had made fruits shrivel and drop off the trees.

## SEEK COMPROMISE ON RECONVERSION JOBLESS PAY PLAN

(By Associated Press)

WASHINGTON, Aug. 9.—Republican protests that the Murray-Kilgore reconversion plan could be used to set up a fat political machine sounded in Congress today.

There also was some talk of a compromise settlement of the row over federal payments to displaced war workers.

Sen. Ferguson (R-Mich.) declared "there never was a bigger political opportunity than that created" by one section of the measure providing for six months of vocational training for idle workers at government expense, with training to be allowed \$50 to \$100 a month for subsistence.

"The proposed work administration could select anyone for training at government expense, there would be nothing to prevent the selections from being political," Ferguson told reporters.

But Sen. Wagner (D-NY) contended "state bureaucrats" are opposing the Murray-Kilgore measure because they fear that federal participation in postwar unemployment benefits would curb their own political power.

Congress must fix uniform rates of compensation higher than present state levels, Wagner continued, without waiting for the "remote possibility" that the states themselves will liberalize their programs.

Sen. Ferguson and another Republican, Sen. Aiken of Vermont, also said they regard present state compensation scales as inadequate and proposed that a middle ground be found by Congress between them and the \$35-a-week rate provided in the federal plan.

Ferguson said he favored a compromise based upon federal payments limited to veterans and workers in war industries, leaving payments to non-war workers to be determined by the states.

A supporter of the Murray-Kilgore proposal, Sen. Wallgren (D-Wash.) said he thought there should be a modification of its provision for unemployment payments at \$12 to \$35 weekly, with the federal government supplementing state payments which average less than half that maximum.

The senate tentatively scheduled a vote tomorrow on the issue.

## Own An Airplane, Get Plenty of Gas

(By Associated Press)

WASHINGTON, Aug. 9.—There is a loophole in the national gasoline rationing program big enough to fly a sports biplane through.

Owners of private airplanes can demand enough gasoline to carry them on a vacation trip to the Yellowstone or a fishing trip to Florida, and their local ration boards must hand them the requested rations.

The only requisite is that the gasoline be used in the plane, not an automobile.

## MRS. HARRY FERRALL

COLUMBIANA, Aug. 8.—Mrs. Elizabeth Ferrall, wife of Harvey Ferrall, died at her home in Fairfield township Tuesday afternoon. She was born in Marietta, July 3, 1880.

Besides her husband she leaves a daughter, Mrs. Mabel McGeer, of Steubenville; two sisters, Mrs. Jane Welsh of Bellona and Mrs. Mae Barcher of Marietta and one brother, John Dye, of Detroit.

Friends may call at the Warlick funeral home from 7 to 9 p. m. tonight. The body will be taken to Steubenville Thursday morning where service will be held Friday.

## WARREN TAYLOR

LISBON, Aug. 8.—Warren Taylor, 75, lifelong Hanoverton farmer, died at 7 a. m. today at the county home where he and his twin brother, Wayne, were taken three weeks ago. The brothers lived alone in Hanover township and both were in serious condition when taken to the county institution.

He was born Feb. 18, 1869 in Mahoning county.

The body was taken to the Eells funeral home, but arrangements are not complete.

## Cookie Prices Rise

WASHINGTON, Aug. 9.—After Monday you will pay a little more for cookies, crackers, toast and crumbs added to retailers by specialty wholesalers the Office of Price Administration announced today.

The slight increase results from new ceilings based on the highest price of March, 1942, rather than on the previous "fixed mark-up," OPA said.

# Demings Upset Salem China 2 To 1

## League Race Thrown Wide Open As Pumpers Take Over First; Sheens Win 10 To 3

Demings, long seeking Class A honors with ardent enthusiasm, finally turned the first and the hardest trick to winning a round championship by defeating the Salem China, 2-1, at Centennial park yesterday.

The win throws the road to fourth round chances wide open for the Pumpers, as every other squad in the eight team loop has posted at least one loss this round. Should Demings go the rest of the route unbeaten, they would be in line for the city playoffs and a chance for the league title.

In the other contest at the park yesterday, Jim's went down hard before a Sheen onslaught that netted 10 runs to three.

#### Pre-War Game Looming As Navy and Army Chiefs Question ODT

By PAT O'BRIEN  
WASHINGTON, Aug. 9.—College football's super spectacle, the Army-Navy game, probably will leave the rural hinterlands and come out in its traditional metropolitan setting this year.

No site has been set for the service gridiron classic, scheduled for Dec. 2, but both Army and Navy officials here indicated a favorable attitude today toward proposals for staging the game in Philadelphia, Baltimore, Washington or New York. It's the Navy's "home" game this season, and the choice of a locale will be made by the admirals and lesser lights who run the academy at Annapolis. But the Army, of course, must concur in all arrangements.

#### Up To Navy

The Navy always has been in favor of the crowd-luring type of contest, staged in a metropolis. In the year following Pearl Harbor, however, the Army clamped down, as did the Office of Defense Transportation, and ruled the game should be held at either Annapolis or West Point, with attendance restricted to residents of the immediate area.

That meant that instead of the usual crowd of 70,000 or 80,000 fans and the colorful fanfare that normally accompanies such a spectacle, the service game in 1942 and 1943 drew under 18,000 customers.

#### Army All For It

Maj. Gen. Alexander D. Surles, the Army's public relations chief, says that the task of arranging the game "is the Navy's pigeon," but hinted that, insofar as he knew, the Army would fall in line with any plans the Navy has for reinstating the contest as a big-time affair.

### Rams Defeat Zions, 21-7, In B Loop Fray

Smashing Zions with a 21-run barrage, the Rams chalked up another win yesterday in Class B softball as their opponents only managed seven runs.

The Columbians, still on a winning streak, defeated Howdys, 8-3, for a league victory in the other junior loop contest.

The Rams tallied 12 runs in one inning, a near-record for this year. Summaries:

### ATHLETICS MEET HANOVERTON NINE AT PARK TONIGHT

#### Locals Looking For First Win In Three Weeks Tonight

Hardball returns to Centennial park again this evening when a strong Hanoverton aggregation is pitted against the shipping Salem Athletics, still without a win in three weeks competition.

Since meeting East Liverpool the Athletics have gone hungry for a win and have dropped seven straight games. The pay today—booked for 6:30 p. m.—should place the Salem team in a more equal class, as the competition of the past few games has been of a higher calibre than Hanoverton promises to exhibit.

Using Pitcher Ralph Allen of Sebring for the first try last Sunday, the Athletics found an effective hurler, in spite of the fact that runners scamper around the bags while he is winding up.

Though several bases were stolen against him Sunday, Allen pitched three innings and held the hard-slugging Cuyahoga Falls team to just three hits. In the first six frames Red Allison gave up 15 hits.

Allen will probably see action today and Gaughn, another Sebring man, is expected to get into the game at the mound assignment. Gaughn, a former Lake Placid hurler, has played a lot of ball in his time and promises to give Hanoverton some batting problems.

The Hanoverton team is made up of a combination of old timers and youngsters from the mid-western section of the county. In past years the Hanoverton and Kensington baseball teams were something to look out for and from season's records this year's edition may be the same.

In 14 games the Hanoverton crew has lost but two, and those to the tough Carrollton Merchants, who downed Salem in both ends of a home - and - home arrangement earlier in the year.

NEW YORK.—Football returns to New York university this fall with a six-game schedule.

### EVER HEAR ABOUT the man IN HER LIFE?

Ben Jones, who remained in Chicago while his flashy filly, Twilight Tear, took a licking from Vienna in Saratoga's Alabama stakes yesterday, may get a little consolation by remembering that time in 1926 when Knute Ricken didn't go along to watch his Notre Dame footballers lick Carnegie Tech and then had to explain away a 19-0 defeat.

### Cleveland Rams to Begin Workouts at Hiram College

(By Associated Press)  
CLEVELAND, Aug. 9.—Six gridiron candidates have been signed by the Cleveland Rams and ordered to report at the team's opening practice session Saturday at Hiram College, Manager Charles (Chill) Walsh announced today.

Two of the six, Al Gutknecht, 210-pound end from Niagara university, and Al Grillo, 225-pound tackle from the University of Idaho, were with the National League's Brooklyn Dodgers last year. The others are Tom Teressa, 215-pound guard, Davis-Eldins college, with the Detroit Lions last year; Earl Tate, 210-pound fullback from the Beaver Falls, Pa., press; Art Tassone, 225-pound tackle from Villanova college, and Tom Corbo, guard from Duquesne university.

## Yankee Maid Retains Juvenile Form For \$42,000 Hambletonian At Goshen, N. Y.

The Hambletonian is run in a county fair atmosphere.

### By HARRY GRAYSON

#### NEA Sports Editor

GOSHEN, N. Y., Aug. 9.—The \$42,000 Hambletonian Stake returns to cross-roads Goshen today, and a lot of city slickers are planning a day in the country.

The Kentucky Derby of the harness world seemed totally out of place a year ago when transportation difficulties forced it to Empire City on the Yonkers hill-top. The habitues missed the down-to-black-dirt flavor so strong and well-liked at Hackensack Bill Cane's kite-shaped Good Time park on the Erie 60 miles up the Hudson.

Goshen's normal 4,000 population skyrockets to six times that much on Hambletonian day. It's a day at a county fair. There is the familiar striped tent of the Middletown, N. Y., church dispensing chicken dinners on paper plates.

It's a lot of fun browsing about the stables and wheeling surr-fur feed box information from weather-beaten trainers always easily approachable.

#### Nine of 12 Are Fillies

The sulky game is by far the more wholesome form of racing, and betting is moderate. Last year, for example, the mutual handle for all afternoon of Hambletonian day was no more than \$353,443.

The Hambletonian is decided by best two out of three mile heats. It is for three-year-olds, of course. Although a filly hasn't prevailed

## Retired Toledo Pastor Philosophical At 100

(By Associated Press)  
TOLEDO, Aug. 9.—With more than 80 years of church work behind him, Dr. John George Schall came to the eve of his 100th birthday today, philosophical in the thought that "it is just another intersection on the road of life."

Born in Wuertemberg, Germany, on Aug. 10, 1844, Dr. Schall was brought to the United States at 3, joined the old German Methodist

church at 17 and seven years later became a volunteer minister. He was a member of the central German Methodist conference from 1863 until its dissolution in 1933 and in all, served 18 pastoral appointments, two more as district superintendent and three others as a volunteer.

Dr. Schall retired in 1918, and for two years thereafter was chaplain of Bethesda hospital, Cincinnati.

It is estimated that more than 27,500,000 homes in the United States are equipped with radio.

ing the outer defenses of the great port.

A strong counter-attack against the British bridgehead over the Orne river south of Caen was repelled with a slight loss of ground. The bridgehead still is secure.

La Plesis and Germout, south of Mont Picon, have been captured. The Americans in the Mortain area captured St. Germain, Les Nuderes and La Pinsonnieres. It was in this area that four German tank divisions mounted the heaviest counter-attack yet made against the Americans in France.

The Canadian First army has captured 800 to 1,000 Germans since the start of their offensive south of Caen toward Falaise early yesterday.

Supreme headquarters said that the bulk of approximately 100 submarines which the Nazis were reported to have in Brittany were believed to have escaped.

## COLUMBIANA ROTARY FETES HOME BAND

COLUMBIANA, Aug. 9.—Rotary club entertained the band of the Fairmount Children's home Monday evening at Firestone park, over 124 were present to enjoy a coverdish supper at Pavilion No. 4.

In the evening the band gave a concert at the pool. President Paul E. Reeves welcomed the guests. Evan Roller was chairman of the committee on arrangements. The club meeting will be held next Monday at Valley Golf club.

The Rebekah lodge met at the lodge hall Monday evening at which time plans were completed for the picnic to be held at Firestone park, pavilion No. 3 Wednesday evening Aug. 16, at 6:30. Members of the Rebekah and Odd Fellows lodges and their families were invited.

Mrs. F. E. Griffen and son, Fred, will spend the weekend visiting in Pittsburgh.

## St. Louis Ranked Over Kansas In Sunflowers

(By United Press)  
ST. LOUIS, Mo.—Anyone who thinks the State of Kansas has the most sunflowers just because it's called the "Sunflower State" has an informational jolt coming.

Dr. Edward Anderson, head of the Washington university botany department, revealed that nowhere in the world can be seen such great masses of the bright yellow plants as in St. Louis.

And Dr. Anderson should know. He's followed sunflower trails all over Kansas and the western plains, and he's studied growth of the wild flowers throughout Europe's Balkan states.

Dr. Anderson, geneticist at the

famed Shaw's Gardens in St. Louis, says that sunflowers like mankind better than most plants. He points out that as man moves from the country to the city, sunflowers follow to beautify areas made ugly by civilization.

With St. Louis boomed by war industries, the sunflowers seem to be following country-bred war workers to town. That may be why Kansas—the Sunflower State—is losing its botanical laurels to St. Louis—the "Sunflower City."

## Condition 'Critical'

PITTSBURG, Kas.—The report on a highway accident says a woman "received minor scalp lacerations, compound fractures of her dignity and a pronounced case of big and little jitters."

## CHERBOURG PORT DIRECTOR IS KILLED

**Capt. Norman Ives, U. S.  
Sub Expert, Reported  
As War Victim**

(By Associated Press)  
WASHINGTON, Aug. 9.—Capt. Norman S. Ives, United States director of the port of Cherbourg, France, has been killed in action.

The Navy disclosed this today, but gave no indication of how the 47-year-old officer met death.

A veteran of duty with submarines, Ives played a large part in development of safety devices which have saved the lives of many men serving on submarines.

He volunteered to command the submarine S-4 after she was raised from the sea bottom off Provincetown, Mass., and fitted out for safety experiments in 1928. The S-4 had been sunk in 1927 in a collision.

Among safety devices developed aboard the S-4 was the "lung" which has made possible the escape of many crew men from sunken submarines.

Ives won the navy cross for his work on the S-4 and a citation said that "during his period of command he participated in all experimental 'lung' work with the lung at great personal risk."

Ives, a native of Galesburg, Ill., was named port director at Cherbourg last month. He was the first Allied naval officer to become director of a captured French port. He arrived in Cherbourg only a few hours after the port was captured.

His duties included direction of movement of all ships operating through Cherbourg in line with military operations on the European continent.

Ives' wife, Mrs. Florence E. Ives, lives in Portsmouth, N. H.

## SPLIT JAPS

(Continued from Page 1)

it began at Pt. Ritidian where the Yanks have plunged the last six and one-half miles to the northeast end of the island. The other end moved past 870-foot Mt. Santa Rosa, a distance of three miles, to the northeast tip—as of Monday, Aug. 7, the date the communique ended.

The center of the "W" is within a mile of cutting the cornered Japanese in half.

Thousands of Japanese caught in another trap in the British New Guinea jungles have been cut into three groups for systematic destruction by two American columns punching toward Wewak from Aitape, MacArthur reported today.

"This division of the enemy has weakened his local resistance," the general said concerning an operation which since July 10 has cut the Japanese more than 4,000 feet—perhaps as many as 9,000.

MacArthur said the power plant on Yap, enemy air base in the western Carolines which now has been neutralized, was swept by fire and explosions during a liberator raid.

Japan's phosphate resources were depleted during a three-day raid, Aug. 5, 6 and 7, on Nauru, reported by Nimitz. He also announced an Aug. 5 raid on Wake island and attacks Aug. 4 in the Paramaribo area of the Kuriles. Not a raider was lost in these operations.

**Snowslide Buries 100**  
SANTIAGO, Chile, Aug. 9.—A snowslide in the Andine copper-mining town of Sewell buried 100 persons yesterday.

## Fought Fire in Air

**Sentimental \$500**  
SCHENECTADY, N. Y., Aug. 9.—A \$500 reward for information leading to recovery of a \$500 bill which he lost was advertised today in a Schenectady newspaper.

The owner explained that the missing bill had sentimental value.

**Von Papen Arrested?**  
ISTANBUL, Aug. 9.—Franz von Papen, former German ambassador to Turkey, was arrested as soon as he entered Germany yesterday on his return from Ankara, an official of an international bank here reported last night.

**Bong Sharpens Eye**  
MATAGORDA PENINSULA, Tex., Aug. 9.—Maj. Richard I. Bong of Peplar, Wis., top Pacific ace with 27 Jap planes to his credit, completed training today in reflection gunnery.

Lakes and rivers are more numerous in Finland than in any other European country.
